

Job Title: Digital Content Designer

Location: Koropi (Attiki) -Commuting to work is available with Company Buses from Doukissis Plakentias metro station

Are you a student and looking to see how all this academic knowledge might be used in corporate life? An Internship in our company offers you the opportunity to test your theoretical knowledge, organizational skills and time-management abilities in real-life situations and obtain insights into the world of **Marketing department** in the medical technology industry.

Micrel Medical Devices SA (www.micrelmed.com) is a dynamic medical technology company, with global commercial presence, which is designing, manufacturing and marketing "smart drug delivery systems." The company offers a full range of ambulatory infusion pumps and related disposables for a broad array of hospital and home-based patient treatments, such as Chemotherapy, Clinical Nutrition, Pain Management, Immunotherapy, Parkinson's etc. The company is currently commercially active, directly or through distributors, in more than 50 countries around the world, mainly in Europe, Middle East and Asia.

Micrel Medical Devices SA is currently looking for a **Digital Content Designer** to support our **Sales and Marketing department**.

You will be able to

- Create supportive audio, video, and photographic content for advocacy initiatives and diverse lines of business services, then implement the content through our e-newsletters, social media accounts, and website
- Support design and layout of presentations, webinars, and other tools
- Develop a library of multimedia assets

We are looking for people with

- Strong hands-on approach and can-do attitude
- Detail oriented, team spirit
- Experience with MS Office
- Excellent communication skills and good knowledge of the English language are required, other languages strongly preferred

If you are interested, please send your CV at careers@micrelmed.com, including the job title in the subject.
